## EXPERIENCE

### Nuts and Bolt Robotics

10th - PRESENT

12.0 hours per week

40.0 weeks per year

Coming from a technology starved cult, robotics helped me learn about the software and engineering. I joined software, but because of the large lack of people I ended up helping build the robot mechanically, software wise, as safety captain, and in administration. Now I have taken the roll as software lead to teach, delegate, and program our robot.

### Aly's Tree Trimming and Yard Clean Up - Project Lead

9th grade -Current

During school year 6.0 hours per week

During summer 35.0 hours per week

Organize and delegate task to a small team of 2-5 groundsmen for projects ranging from landscaping to tree trimming to yard clean up. Assist in tree climbing and cutting, yard planning, landscaping, and yard clean up

### San Jose Tree Service

11th - 12th grade

10.0 hours per week

12.0 weeks per year

My sister and I used HTML and other websites to create a website for this business so he could get more publicity. This was one of the effects of my exposure to coding in robotics. I had to create a design learn the language and also transfer his message to his website.

### Church of God 7th Day

9th - Current

5.0 hours per week

52.0 weeks per year

In COG 7th day I worked as the lead audio engineer to ensure the smoothness of worship services, teach others, and changing the entire sound system of the church. I initiated the change of the sound system, meaning learning new sound systems, wiring everything, and teaching others. At this church it was part of the change led by my generational.

## AWARDS

**Safety Captain Award**  
demonstrate a commitment to safety on your FRC team in competitions.

**Honor roll** For having a GPA of 4.0.

## LANGUAGES

English - Reading, Writing, Speaking

Spanish- Speaking

## **Zine**

11th - 12th grade

2.0 hours per week

25.0 weeks per year

Zine is a club that focuses on supporting, publishing, and creating student art within our school. I work as secretary and contributor to organize meeting and parts of production, but also to create art and to improve our school relationship and social environment. My art are usually digital pieces that comment on color and the disguise of face.

## **Model UN**

11th - 12th grade

2.0 hours per week

25.0 weeks per year

I helped start the Model UN club at my school to teach and learn more about the functionality of the UN and respect for other nations. We have held debates and lessons. At school and home I was not taught unbiased history or current day issues so we wanted to use Model UN as a path for students to learn about the political spheres they live in.

## **San Jose Tree Service**

11th - 12th grade

10.0 hours per week

12.0 weeks per year

My sister and I used HTML and other websites to create a website for this business so he could get more publicity. This was one of the effects of my exposure to coding in robotics. I had to create a design learn the language and also transfer his message to his website.
